

Project TV Devices

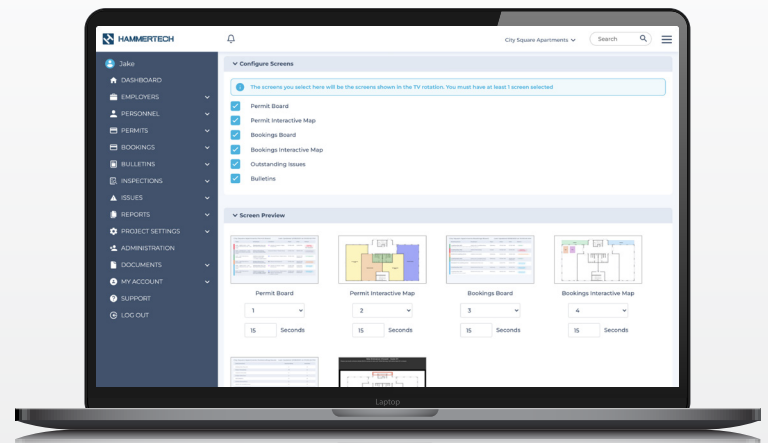

Introducing the Updated HammerTech TV App!

Seamlessly Connects with your HammerTech project, allowing you to set up your TVs the way you need them across different devices and projects

Share Important Information such as bulletins with workers on site, notify of any exclusion zones; flagging where access is and isn't permitted, view upcoming site permits, bookings, outstanding issues and more

Customise the order that the screens appear, the time you want to see them, and hide what isn't applicable. All of this can be accessed through HammerTech, and will be updated on your TV automatically

Set the screens to **rotate automatically**, or pause on selected screens when there is a need to focus

Available Now on the Google Play Store.

A screenshot of the HammerTech TV App interface showing the 'Permit Board' section. The board lists permits with columns for Type, Employer, Location, Start, End, and Status. The status column includes color-coded indicators for 'Expired', 'Completed', 'In Progress', 'Scheduled', and 'Upcoming'.
